SUMMARY

Passionate Front-end **Developer** with over **2 years of experience** in building **responsive and interactive web applications**. Proficient in **HTML, CSS, JavaScript, React, and modern front-end frameworks**. Strong problem-solving skills with a proven track record of **collaborating with teams to deliver user-friendly, high-performance interfaces**.

WORK EXPERIENCE

Freelance | Front-end Developer

- Developed and optimized **user interfaces** for client projects using **React.js**, ensuring seamless interactivity and responsiveness.
- Collaborated with **UX/UI designers** to translate wire-frames into fully functional, user-friendly web pages.
- Delivered mobile-friendly designs that improved usability scores from **60% to 85%**, leading to a **30% boost in customer satisfaction**.
- Adhered to best coding practices, optimizing applications for speed and accessibility.

Volunteered Work for Edu_Spur

- I worked as a Frontend Web Developer which I helped rebuild their landing page as part of skill development and enhancement using React.js.

PROJECT EXPERIENCE

AI Agency Website → <https://agencyai-webste.vercel.app>

- Designed and developed a fully responsive landing page for a digital agency using **React.js** and **Tailwind CSS**
- Implemented clean, modern UI/UX with sections including services, portfolio, team profiles, and contact form
- Integrated responsive breakpoints ensuring seamless display across devices (mobile-first approach).
- Deployed projects to **Vercel**, optimizing performances and accessibility.
- Demonstrated expertise in **frontend development, component structuring, and modern design practices.**

Background Remover → <https://remove-ease.vercel.app/>

- Built with React.js for a responsive, component-driven UI
- Integrated Remove.bg API for the AI-powered background removal
- Secured with Clerk for user authentication.
- Deployed to Vercel for accessibility

Aptech Satellite Town Institute Website → <https://aptechsatellite.com/>

- Designed and developed to showcase their tech courses using **React.js**, **Tailwind CSS**, and **Getform**.
- Form and WhatsApp Integration for Lead Capturing.
- Built with a component-driven React architecture and optimized for **SEO** with **proper meta tags**.
